Contact Tracing & Social Distancing

Overview

Due to the current COVID-19 pandemic situation:

Government is implementing all sorts of **Contact Tracing & Social Distancing** measures to contain the pandemic.

Our **Contact Tracing & Social Distancing** solution utilizes state of the art technology to make the process more smooth and comfortable for the users.

Our comfortable-to-wear tags will beep and emit a flashing red light when they are close to one another to remind the users to keep a safe distance. We can extract the records of the tags that came within the proximity of a tag to perform contact tracing.
