

Workplace Safety Management System (WSMS)

Overview

Due to the nature of certain jobs, there is almost always a risk in safety. Especially so during this COVID -19 pandemic period. Danger lurks around your employees as they are doing their jobs and should something unfortunate happen to them, the responsibility falls upon you.

WSMS is designed to aid you in keeping your employees safe and remove that responsibility off your shoulders.

Key Features

- ▶ Keep track of employees' whereabouts
- ▶ Geo Fencing to keep employees from entering or exiting an area
- ▶ Live monitoring of workplace traffic via Dashboard
- ▶ Alerts (SOS, mandown, etc.)
- ▶ Set your own rules / parameters for Alerts

The core concept behind the design for WSMS is to provide seamless intuitive operations.

Additional Features

- ▶ Contact Tracing
- ▶ Social Distancing
- ▶ Push notifications / Text messaging
- ▶ Reports
- ▶ Interface to 3rd party applications
- ▶ Highly customizable

How will WSMS benefit your company?

- ▶ Reports to help company make informed decisions to allow better efficiency in work flow and improve the productivity of your employees
- ▶ You are not only meeting government compliances for workplace safety but also automating the process of managing your employees
- ▶ Give your employees peace of mind as they know that they are working in a safe environment. A happy employee is a more productive employee

Summary

WSMS aims to ensure the safety of employees from all companies while providing incentive for the company such as increasing employees' productivity and ultimately generating more revenue for the company. At the end of the day, WSMS will be paying for itself.
